

## “Waves apartments Guernsey”

“It was around 2 years ago when we were contacted by an owner / developer based in Guernsey .

Having provided all the room dimensions for his project “Waves” we provided by return our usual detailed quote for around 20 or more radiators .

Without ever seeing the product or indeed ever talking to us and simply on the basis of the quote plus detailed supporting documents, imagine our pride when this customer bacs transferred the funds direct into our bank account. The product was shipped to him next day.

Whilst on holiday in June 2011, I spotted the project and took these photographs of the finished holiday apartment complex in Cobo bay Guernsey.”
